# Los Angeles Herald.

CITY AND COUNTY OFFICIAL PAPER.

SUNDAY, JAN. 17, 1875.

The day after his election to the Senate by the Legislature of Nevada, SHARON left Carson City for his home in San Francisco.

CHARLES Ross has been found. So says a San Francisco yeast powder firm. He was "raised" with a box of their compound.

As the HERALD goes to press, a sound, cheery rain is coming down. Rain is reported from Downey, Wilmington and San Fernando. Let there be prayers of thanksgiving to-day.

MR. MATHEWS was out yesterday canvassing for stock takers in the Los Angeles and Independence Railroad. He disposed of about one hundred shares, the highest taken by any one person being five shares. The people are becoming interested.

The trial of MUYBRIDGE, the slayer of Major LARKIN, will take place next month. Able counsel has been employed on both sides. Meantime Mrs. MUYBRIDGE, about whom the trouble originated and who is now in Oregon, has sued for a divorce.

NEVADA has been the home—the paradise—of gamblers, from the discovery of the Comstock lode to the present day. But she is going to reform, and as no one shouts so loud as a new convert, she is going to the opposite extreme. A bill has been introduced in the Legislature making it a misdemeanor for any one to peddle prize-canvases on railroad trains in the State of Nevada.

A SPANISH spiritualist—Señor MATTEO—has made a discovery that will be interesting to some editors we know of. He says the spirits of the dead hover for a time between the earth and the moon, and whirl in space a longer or a shorter time, in proportion to their good or bad life here below. He has also found out that Mercury is the circle of paradise, and Neptune the other place, where those editors we speak of are so afraid of going.

WERE it not for the promise that the rain should fall on the unjust as well as the just, we should suspect that Los Angeles was a wicked place and was doomed to a long dry spell for her wickedness. Rain has fallen all around us, while we have had but a slight sprinkle. Even as near Visalia they have been favored with thirty-six hours of steady rain. However, the clouds still promise to pour their garnered treasures down, and for the present we must be satisfied with the promise.

THE San Bernardino Argus exults over the prospective injury which Los Angeles will suffer through the passage of HOUGHTON's bill to change the route of the Western Pacific Railroad. We hope and believe the Argus speaks for itself only, and that the exultant feeling it manifests is not shared by the people of San Bernardino city and county. The interests of Los Angeles and San Bernardino are identical so far as railroad facilities are concerned. Whatever affects the trade interests of one must in like manner affect the other. We do not apprehend that the Southern Pacific Company will succeed in their attempt to avoid the fulfilment of their contract with the people of this county, but the animus manifested by the Argus is in exceeding bad taste and will, we are confident, be promptly and severely rebuked by the people of San Bernardino and their leading journal—the *Guardian*.

The "Bulletin" on the Situation.

The San Francisco Bulletin of the 14th inst. contains a leading editorial on the attempt of the Southern Pacific Railroad Company to change the route of their road so that it will run through the Cajon Pass and leave Los Angeles a long distance to the west. It takes decided ground against the action and holds up to ridicule the company that after promising the people of Los Angeles to build the road through this city provided certain subsidies were granted, now, after obtaining the subsidy, seeks to avoid the fulfilment of their contract.

Of the contest for the right of way through Cajon Pass, which has resulted in favor of the Los Angeles and Independence Railroad Company, the *Bulletin* says: "A bill granting exclusive right of way through Cajon Pass will cut off all possibility of competition from that quarter—so says the Southern Pacific Railroad Company. Every day now develops some new and interesting feature in the struggle." The telegraph announces, on the heels of the introduction of the bill, a scramble between the rival companies for prior location. The sequel has somewhat discomfited the Southern Pacific Company, and may result in its utter defeat. The Independence Railroad engineer, it is reported, drove his stakes home first. If the younger organization manifests hereafter an equal degree of pluck and activity to that which it has manifested so far, it is likely to come out victorious. It has with it the sympathy of the entire community wherein it was created. As an enterprise calculated to afford cheap and expeditious transit of persons and goods from a remote section in the interior to the seaboard it will command the sympathy and good will of the entire State.

## A Strong Argument.

One of the strongest, because the most unanswerable arguments in favor of the speedy building of the Los Angeles and Independence Railroad, is found in a letter published in yesterday's HERALD, written by Mr. NEWMARK, of this city, now at Panamint, and addressed to a number of our leading citizens who are taking an active part in urging forward the road enterprise. Mr. NEWMARK is one of those careful business men who weigh and consider all propositions of such magnitude as building a railroad with the utmost caution before becoming either its advocate or opponent, and he frankly admits that, previous to visiting Panamint district, he regarded the building of the road as exceedingly problematical. But an examination of the country and but partial information as to its vast mineral resources, has convinced him that the road is not only a necessity, but will prove a valuable piece of property to its owners, as well as adding millions to the wealth of this city and county. Mr. NEWMARK states that Senator JONES and his associates will supply five hundred tons of ore to ship to England per day. Here is daily work for fifty freight cars, to say nothing of the ore from other mines not owned by this company and from the hundreds of undiscovered lodes that will be developed in Inyo county. The immense business which these mines will create will, of course, necessitate a large freighting business over the road to the interior. The fact mentioned by Mr. NEWMARK, that the region of the mines is capable of producing nothing but ore, is confirmation of the argument made by the HERALD some time ago, that the building of the road will furnish a regular and steady market for everything produced in Los Angeles valley. No one can read Mr. NEWMARK's letter and fail to see that this railroad is just what Los Angeles valley needs to make it the richest spot on the Pacific coast.

## Katie Kings.

Simultaneous with the detection of the Philadelphia waif, comes a report from Europe that the original KATIE has been captured by a material hand. It is hoped that the atmospheres will be cleared of this crowd of imposters very soon. To give color and support to the delusion, some spiritualist papers have taken the ground that the Bible gives the first account of materialized spirits. The case of SAMUEL'S appearance to SAUL; the angel's appearance to JOHN, and the resurrection of Christ, are given as examples. People who receive such ideas from reading the Bible read to very little profit and manifest a grossness of mind as material as their bodies. In nearly every instance of spirit-seeing mentioned in the Bible it is stated "their eyes were opened," or they were in a vision, etc. The case of the servant of ELIJAH, the prophet, is a full explanation of this subject. The prophet and his servant awoke in the morning and found themselves surrounded by an army of soldiers. The servant was alarmed and inquired, "Master, what shall we do?" He could see the army, and to him there appeared no way of escape. The prophet prayed that the eyes of his servant might be opened. The prayer was answered and the servant beheld an immense host—an army of spiritual beings—encamped between him and the king's army. He exclaimed, "Greater than they are that are for us than they that are against us." The eyes of the servant were opened—not his natural eyes, those he had used to see the king's hosts; it was his spiritual vision, a faculty that every human being possesses, and can be used when the Lord wills it. A few are born with the faculty of seeing spirits, and in some instances they have kept it through life; very many have their spiritual sight opened just before death. "To some is given the discerning of spirits." That the power now exists and has existed for thousands of years of opening this faculty by a diabolical art, is firmly believed by many. When this power is natural, or comes by Divine permission, it is never used for bad or selfish purposes, and those who possess it generally lament it and try to hide it from the world. But in all cases where this faculty is sought it is for evil purposes; hence the ancient law of putting people to death who practiced the art. That spirits have power to move and change material objects we have no doubt; indeed all material nature is sustained and changed by spirit power—in fact there is no other source of power. But that a departed spirit has power to materialize so as to appear to our natural vision, is not true. If they do appear, it is by a wicked art, they possess in conjunction with one or more individuals in the company, of opening the spiritual vision of those who are present. It is our opinion, however, that not one case in a thousand of these pretended wonders is genuine. We are always glad to have humbugs detected, but otherwise it is a waste of time to be running around to investigate these things—as foolish as it is to discover something supernatural. They want a sign; and thousands, like THOMAS, will not believe until they thrust their hand into the wound. No sign was given them, and to THOMAS it was said, "Blessed are they who have not seen, and believe." The true philosopher looks within himself to investigate spiritual phenomena.

## DIED.

LEVY.—At Los Angeles, January 16th, at the age of 92 years, Mr. Pauline Levy, widow of Dr. Tros, a son.

Two "prairie schooners" left San Fernando for Panamint, the other day, loaded with \$25,000 and 19,000 pounds of freight respectively.

JAMES PASO, one of Harry Moig's engineers in building a railroad across the Andes, is at San Diego, his former home.

## About Taxes.

EDITOR HERALD: I am comparatively a stranger in your city and State, and I must confess that a great many things I have seen and seen queer to me. If I am not mistaken, your tax assessor last year was *extra* for making the assessment. Yet in looking over the tax list I see many things that seem singular to me. I expected that he would call at my house, or give notices for me, and all other tax-payers, to call on him and give in taxes. If he called for me I never heard the call. I am certain he never called at my house, nor ever saw me, or any of my family, about taxes. But I was surprised to see my name on the "delinquent tax list," and still more surprised to see that the whole amount of my taxable property was valued at less than seventy-five dollars, which, if I had been called upon to give in under oath, I could not have valued at less than five hundred dollars. If this is a fair sample of the way in which the affairs of your city are administered, then there is no wonder that you have such heavy taxes levied upon a few and yet so few such mean improvement. If a man is paid extra for doing his duty, not his duty but his *extra* duty? A TAX-PAYER.

MAINTAINING.

## LOCAL BREVIETIES.

Mr. Ira Worden will please call at this office for letters.

There will be a grand ball by the military on the 22nd of February.

"B. F. O." will find two letters at this office for him.

Immense piles of freight are at the Spadra terminus, awaiting transportation to the mines.

The Southern Pacific Company still have a corps of engineers at work in Cajon Pass surveying a route.

One thousand and sixty-five sacks of corn were shipped from Downey yesterday.

Our citizens will have a magnificent musical treat this week in the "Cantata of Esther."

The Forest Grove Association have twenty-eight boxes of eucalyptus trees sprouting handsomely.

The Grangers have purchased Koleski's store at Orange, and placed Mr. Anderson in charge.

A shipment of coal oil from the new wells at San Fernando was received yesterday.

The retail trade is brisk; wholesale "middling," but the rains will make it boom.

The Senator is due from above tomorrow, and the Ventura will sail for San Francisco.

An interesting article from Col. J. J. Warner will soon appear in the HERALD.

All the hotels in Anaheim have been crowded since the iron horse reached that burg.

At O'Meara's establishment, yesterday, 150 gallons of Chrichton's ale and porter were bottled. Considerable of it will go to Panamint.

The schooner Eclipse left yesterday for Yreka; the Ramsell for Umpqua, and the Jessie Nickerson for San Francisco.

Frank M. Lathrop is anxious to light the streets of Los Angeles, at \$4 per month for each lamp, furnishing lamps and oil.

There's a fellow in town who says he can make the best whisky, gin, French brandy, apple jack or rum for a cent a drink. If he stays in town long the damage will be irreparable.

The County Auditor has warrants in his hands for a large number of claimants; they will only be delivered on personal application or written order.

An up-the-country paper thus hauls the welcome rain: "The blessed rain! And grateful farmers; to say nothing of the miners, and the discomfited, gloomy croakers. The Spring lambs shall gambol on the grass, and all shall rejoice at the glorious golden showers."

The new hack recently purchased by Mr. Dave Green attracts universal attention. It is heavily mounted with silver, and elaborately finished on the inside with lavender colored silk, with all the latest improvements. Dave is a good fellow, and we unite with his many friends in wishing him success in his new business.

The "Fashion Stables," on Main street, are as well arranged as any establishment of the kind on the lower coast, and Macy, Wilson & Co., are always fair in their dealings. They have elegant equipages and safe and fast horses. Residents and strangers will find it to their advantage to call at the "Fashion Stables" when they need anything in the livery line.

Yesterday morning, between midnight and day-break, some unknown persons broke into the Cincinatti wine depot, at the corner of Los Angeles and Requena streets, and made considerable booty. The rascals forced their way through a window. They captured over 1,000 cigars, several bottles of champagne, jewelry, silverware and clothing. They found nothing in the money-drawer.

Mr. James, Register of the U. S. Land Office in this city, has just returned from San Francisco, whence he was called as a witness in behalf of the United States, against Keyser and others, charged with cutting wood on public lands. The offense was committed in Ventura county some few months since. The trespassers were convicted and sentenced to pay a fine of \$500 and imprisonment for twenty-four hours. Wood-cutters under like circumstances will do well to take warning.

Messrs. Williams & Smith have purchased the Cottage Photograph Gallery and are now prepared to furnish the best style of photographs at prices within the reach of all. Mr. Smith is an accomplished artist, having spent many years in the business of photographing in one of the Eastern cities. We recommend him to all those who wish to secure better pictures than have been heretofore taken in this city, at rates a great deal less than it has been the custom to charge. Don't forget the place—Cottage Picture Gallery, opposite the Pico House.

## Personal.

Fred V. Holman, a member of the Senior Class of the State University, is in the city. He is one of the editors of the *Berkeleyan*, one of the best college monthlies in the United States.

Father Jose Galera has taken the place of Father Duran in this Parish during the latter's absence at San Juan Bautista. Father Sanchez is at Anaheim, where he is devoting himself to the interest of the orphans' fund.

Capt. Geo. B. Davis, of the Alden fruit preserving works, is a passenger on the Senator, and will be here on Monday.

Geo. L. North, the railroad agent at Spadra, has resigned, and W. H. Mouthrop appointed in his stead.

J. L. Ward, late agent of the Goodall, Nelson & Perkins Steamship Line, has entered into the commission business. As his enterprise and business integrity have been fully established he is certain to do a large commission business.

Mr. Adams has retired from the firm of Judson, Gillette & Adams, examiners of titles.

## OUR RAILROAD INTERESTS.

*Proceedings of the Chamber of Commerce.*

The Chamber of Commerce had a called meeting last night, at Judge Sepulveda's Chambers, to protest against any proposed action of Congress to allow the line of the Southern Pacific Railroad to be so changed as to leave the city of Los Angeles thirty miles or more to the west.

Present, Mr. Lazarus in the chair, and Messrs. Widney, Hewitt, Barrows, Caswell, Brodrick, Lord, Downey and others invited to attend.

### LIFT UP THE LATCH AND ENTER IN.

BY REV. H. NEVIN, D. D.

"Twas dark, and I with inward fear  
Stood like a culprit weeping near.  
The house in which my Savior dwelt,  
With its poor roof, and broken eaves,  
Was dark, and I with inward fear  
Stood like a culprit weeping near.

"A you addressed me from within,  
"Lift up the latch and enter in."

I thought it was unfit to be  
A guest of such a man as He;

I tried to make myself as fair  
Before I used to enter there;

But still the voice was heard within,  
"Lift up the latch and enter in."

But in my deepest heart I knew  
That I had shined, and basely too;

I trifled with the blood and tears  
That I had caused in this world;

But still the voice was heard within,  
"Lift up the latch and enter in."

But I would rather not comply  
With such a master as He;

I need a better heart before  
I could be welcome at the door;

But still the voice was heard within,  
"Lift up the latch and enter in."

"Not now," I said, "I will do again  
What I am free from all my pain;

Nothing can make me worse than this;

But still the voice was heard within,  
"Lift up the latch and enter in."

"With all my might I will press  
Upon your bosom with all my force;

So that you'll never know me now—  
"Lift up the latch and enter in."

### God's Children's Sleep.

God has a mother's way of putting a child to sleep. You know there is no cradle-song like a mother's. After the excitement of the evening, it is almost impossible to get the child to sleep. If the rocking-chair stops a moment, the eyes are wide open; but the mother's patience and the mother's soothing manner keep on until, after a while, the angel of slumber puts his wing over the pillow. Well, my dear brothers and sisters in Christ, the time will come when we will be wanting to put to sleep. The day of our life will be done and the shadows of the night of death will be gathering around us. Then we want God to soothe us—to hush us to sleep. Let the music at our going not be the dirge of the organ or the knell of the church tower, or the drumming of a "dead march"; but let it be the lullaby of a mother's lullaby. Oh! the cradle of the grave will be soft with the pillow of all the promises. When we are being rocked into that last slumber, I want this to be the cradle-song: "As one whom his mother comforteth, so will I comfort you."

"Asleep in Jesus. Far from thee  
The world will number but 14,000 and they  
Will be kept undivided, to save expenses to  
the shareholders. This will give about thirty  
sheep to each share. The sheep will be fed for  
last two years upon the hills adjoining the ocean. This wheat field contains 1,000 acres and covers the highest soil upon the Rancho. There is no alkali or barren land.

The tide of immigration is steadily setting in, and the number of people to be  
admitted is increasing rapidly. They are  
to be allowed to buy land in the Rancho  
as follows: One acre for \$100, and half an acre  
for \$50. Each acre will be irrigated for  
two years, and then the owner may sell it  
at \$200 per acre.
